Amounts in euros, gross per hour. Columns: working hours per week where the heading gives a number of hours.

How to read this table

- The rows are the wage categories of the sector's function classification, from A.1 to D.2. Each category is a percentage of the base wage: from 100% to 140%.
- The columns are the weekly working schedule. In the 38.5, 39 and 40-hour schedules compensation days are granted, which is why the hourly wage is slightly lower there.
- These scales also apply to garage staff in the subsectors for buses, coaches and removals (subcommittees 140.01 and 140.05).
- At an indexation both the minimum and the actual wages rise.
